

ATLS®

ADVANCED TRAUMA LIFE SUPPORT
DEUTSCHE GESELLSCHAFT
FÜR UNFALLCHIRURGIE

CERTIFICATE

We hereby proudly certify, that

Prof. Dr. med. Richard Stangl

has successfully participated in a

***Instructor Course in
Advanced Trauma Life Support® for Doctors (ATLS®)***

The ATLS® Instructor Course was performed within the National Advanced Trauma Life Support® Program (ATLS®) of the Akademie der Unfallchirurgie GmbH of the Deutsche Gesellschaft für Unfallchirurgie (DGU)

The National ATLS® Program in Germany is fully recognized and licensed by the American College of Surgeons (ACS), Committee on Trauma (COT).
It meets all international criteria for National ATLS® Programs.

ATLS® Provider Courses for Doctors train generally accepted diagnostical and therapeutical strategies in management of acute major trauma. They offer a systematic approach, clear concepts and techniques in clinical diagnosis and treatment for Doctors in Acute Trauma Care.

Prof. Dr. med. Richard Stangl is recognized as having successfully completed the ATLS® Instructor Course and subsequent teaching requirements in an ATLS® Provider Course for Doctors according to the standards established by the American College of Surgeons (ACS), Committee on Trauma.
